

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PREVALENCE OF DISEASE.

No health department, State or local, can effectively prevent or control disease without knowledge of when, where, and under what conditions cases are occurring.

UNITED STATES.

CURRENT STATE SUMMARIES.

Telegraphic Reports for Week Ended Dec. 4, 1920.

These reports are preliminary, and the figures are subject to change when later returns are received by the State health officers.

SUMMARY OF CASES REPORTED MONTHLY BY STATES.

The following summary of monthly State reports is published weekly and covers only those States from which reports are received during the current week:

State.	Cerebrospinal meningitis.	Diphtheria.	Influenza.	Malaria.	Measles.	Pollagra.	Poliomyelitis.	Scarlet fever.	Smallpox.	Typhoid fever.
1920.										
Hawaii (October).....	1	12	19		36					15
Kansas (October).....	7	1,155	39	1	194		6	889	144	156
Maine (October).....	5	119	11		239	1	17	63	11	92
Massachusetts (November).....	6	843	67	5	1,647	1	77	658		83
North Carolina (October).....	5	923			71		4	229	60	208
Pennsylvania (September).....	14	1,162		3	576	1	30	867	16	495
Pennsylvania (October).....	14	2,167		5	1,611		27	1,981	2	460

ANTHRAX.**Maine, Massachusetts, New Jersey, and Pennsylvania.**

During October, 1920, one case of anthrax was reported in Maine and two cases were reported in Pennsylvania. During November two cases were reported in Massachusetts. During the week ended November 20, 1920, one case was reported at Lowell, Mass., and one was reported at Bloomfield, N. J.

CEREBROSPINAL MENINGITIS.**City Reports for Week Ended Nov. 20, 1920.**

The column headed "Average cases" gives the average number of cases reported during the corresponding week of the years 1915 to 1919, inclusive. In instances in which the information is not available for the full five years, the average includes from one to four years.

Place.	Average cases.	1920		Place.	Average cases.	1920	
		Cases.	Deaths.			Cases.	Deaths.
